**Documents referred to in Paradise Dam Preparedness Review Report
2019-2020 – Required for expert assessment of safety and rehabilitation options**

NB: The documents below are expressly referred to in Appendix F of the *Paradise Dam Preparedness Review – Report 1: 2019 -20 (Preparedness Review Report)*.

We have identified each page of the Preparedness Review Report at which these documents are referred, for ease of reference.

Page 93

1. Paradise Dam Spillway Flood Damage 2013 Interim Design Report dated June 2013.
2. Comprehensive Dam Safety Inspection completed in October 2013.
3. Dam Safety Review which included early revised assessment of dam safety risks and potential failure modes post 2013 flood, dated October 2014.
4. Independent Technical Review by Sunwater's insurer, which concluded that "*damage to the primary spillway following the 2013 flood would not be expected for a structure designed and constructed to modern design standards*", dated October 2014.

Page 95

5. Revised Dam Safety Review completed in April 2016.
6. Revised Comprehensive Risk Assessment completed with input from the April 2016 Revised Dam Safety Review, dated June 2016.
7. Report or other document recording the works involved in completing Stage 2 Dam Improvement Project, involving strengthening the base of primary spillway monoliths D & K by the addition of reinforced concrete protection and anchor bars, dated August 2017.

Page 96

8. Preliminary Business Case for combined Stages 3 and 4, Dam Improvement Project, dated June 2018.
9. Paradise Dam Spillway Improvement Project Preliminary Design Report incorporating the results of samples taken in 2006, dated July 2019.

Kind regards
